Summary

- Creator of widely-used **NPM** packages trusted by over **20,000+** developers every week.
- Maintainer of libraries like **Mantine**, **PrimeReact**, and **RSuite** impacting **3.4 million+** developers monthly.
- Highly passionate developer with a strong emphasis on **Security**, **Accessibility**, **Performance**, and **Testing**.

Experience

Senior Software Developer, Sears Mar-2023 - Present

- Developed a high-performance **React table library** from scratch, supporting priority-based sorting, multi-column filtering, and advanced features with full **Accessibility** and **Test Coverage**, now utilized by multiple teams company-wide.
- Integrated **OpenAI's** streaming API to enable real-time content delivery with markdown support, error handling, response regeneration, request abortion, and a feedback mechanism, ensuring a smooth, interactive, and reliable user experience.
- Led the development of a real-time inhouse chat platform using **Node.js** and **Socket.IO**, collaborating closely with the support and product teams to replace a third-party tool, resulting in **55%** faster issue resolution and saving **\$30,000+** annually.
- Revamped the Wiki docs using **Next.js**, resulting in a blazing-fast, searchable documentation experience powered by **Static Site Generation (SSG)** and **Incremental builds**.
- Led the development of a dynamic, codeless offers management platform that enables vendors to create ad campaigns and automate scheduling with **Cron-based** functionality.
- Collaborated closely with cross-functional teams to implement design best practices and improve overall user experience, recognized with an **Excellence Award** for performance improvements in critical applications.

Web Developer, miniOrange July-2022 - Nov-2022

- Optimized the **WordPress** SSO plugin by reducing its bundle size from **1.5 MB to 270 KB**, leading to a **70%** increase in downloads.
- Improved React application performance by optimizing and refactoring code, resulting in quicker load times and a better user experience.
- Assisted senior designers in creating wireframes, prototypes, designs using **Figma**.

Skills

- **Languages** : JavaScript | TypeScript
- **Front-end** : NextJS | ReactJS | Zustand | Redux | HTML5 | TailwindCSS | SCSS | CSS3 | Bootstrap | Styled Components | jQuery | Jest | Rollup | Webpack | Docusaurus | Framer-motion | Responsive Web Pages
- **Back-end** : NodeJS | ExpressJS | Redis | WebSockets | MySQL | MongoDB | Mongoose | RESTful APIs | Winston
- **Tools** : Figma | Postman | Chrome Dev Tools | Un-Lighthouse | Git | Github | NPM

Open-Source Contributions

Package	PR	Description	Downloads
Mantine	#6466	Enhanced the tooltip component of Mantine with improved accessibility.	2.3M/month
Prime-react	#6860	Fixed re-rendering issues in the Sidebar component, optimizing performance and ensuring better state management in the PrimeReact library.	737K/month
Rsuite	#3875	Introduced a "paused" option for the speed prop in the Loader component, allowing for finer control over the animation state.	423K/month

Projects

- **Github-CLI** Github | NPM | Docs
 - Built with **NodeJS** and the **GitHub API** to enable seamless repository management, pull request handling, and issue tracking directly from the **terminal**.
 - Designed an intuitive **CLI** structure with minimal setup, allowing developers to streamline workflows through commands like **repo-create**, **pr-merge**, and more.
 - Achieved over **5,000+** weekly downloads on NPM.
- **React-Fast-hooks** Github | NPM | Docs
 - Created and published a custom **React hooks library** to boost performance and simplify complex logic within React applications.
 - Released on NPM, gaining interest from the React community.
 - Reached almost **15,000+** weekly downloads on NPM.

Education

- **Bachelor of Computer Engineering** P.E.S. Modern College of Engineering, Pune 2018 - 2022
C.G.P.A: 9.05
