Summary

- Proud **Open-Source** contributor and creator of **NPM** packages with over **10K+ weekly** active users, with deep expertise as a passionate full-stack developer in the **JavaScript** ecosystem.

Experience

| Software Developer | Sears | Pune, India | Mar-2023 - Present |

- Led the development of an **Offers Management** software, empowering vendors to design and deploy dynamic, codeless solutions with features like ad campaign creation and automated scheduling through **Cron** functionality. Now utilized by over **2+** high-profile vendors.
- Built a **React table library** from the ground up, now utilized by multiple teams company-wide, featuring priority sorting, multi-column filtering, and various other advanced functionalities.
- Integrated **OpenAI's** streaming **API** into the **Tech-Assist** app to enable seamless content streaming, ensuring smooth and reliable support for our customers.
- Implemented performance optimizations for real-time web applications using **WebSocket API**, resulting in a **30% reduction in API request traffic** and improved data update rates.
- Advocated and implemented **test-driven development (TDD)** across **Angular** and **React** projects, and led a full project "**Sassification**", enhancing developer experience with easy-to-style, independent components.
- Collaborated closely with cross-functional teams to implement design best practices and improve overall user experience, recognized with an **Excellence Award** for performance improvements in critical applications.

| Web Developer | miniOrange | Pune, India | July-2022 - Nov-2022 |

- Optimized the SSO plugin for **WordPress**, reducing its size from **1.5 MB to 270 KB**, which contributed to **70% increase in downloads**.
- Improved React application performance by optimizing and refactoring code, resulting in quicker load times and a better user experience.
- Assisted senior designers in creating wireframes, prototypes, designs using **Figma**.

Skills

- **Languages** : JavaScript | TypeScript | Java
- **Front-end** : NextJS | Angular | ReactJS | ReduxJS | NgRx | RxJS | HTML5 | SASS | CSS3 | BootStrap | Styled Components | jQuery | WordPress | Rollup | Docusaurus | Jest
- **Back-end** : NodeJS | ExpressJS | MySQL | MongoDB | Mongoose | RESTful APIs | WebSockets
- **Tools** : Figma | Postman | Chrome Dev Tools | Github

Open-Source Contributions

Package	PR	Description	Downloads
Mantine	#6466	Enhanced the tooltip component of Mantine with improved accessibility.	2.3M/month
Prime-react	#6860	Fixed re-rendering issues in the Sidebar component, optimizing performance and ensuring better state management in the PrimeReact library.	737K/month
Rsuite	#3875	Introduced a "paused" option for the speed prop in the Loader component, allowing for finer control over the animation state.	423K/month

Project

- Github-CLI   Github | NPM | Docs
    - Built with **NodeJS** and the **GitHub API** to enable seamless repository management, pull request handling, and issue tracking directly from the **terminal**.
    - Designed an intuitive **CLI** structure with minimal setup, allowing developers to streamline workflows through commands like **repo-create**, **pr-merge**, and more.
    - **Usage and Impact**: Achieved **1,000+** weekly downloads on NPM**.**

- React-Fast-hooks   Github | NPM | Docs
    - Created and published a custom **React hooks library** to boost performance and simplify complex logic within react applications.
    - Released on NPM, gaining interest from the React community**.**
    - **Usage and Impact**: Reached **10,000+** weekly downloads on NPM.

Education

- Bachelor of Computer Engineering   P.E.S. Modern College of Engineering, Pune   2018 - 2022
  C.G.P.A: 9.05

- XII   S,P. College, Pune   2018
